Technical Regulations Purpose

This is to be read in conjunction with the [GNSW General Regulations Section](#).

The FIG Code of Points and Technical Regulations, and the Gymnastics Australia Technical Commission Regulations provide governance for Acrobatic Gymnastics (ACRO). This handbook provides ACRO in NSW with general and program information, technical regulations, event information and selection process, policies and forms.

The ACRO Gymsport Committee shall be master of its own procedures.

Where any event occurs that is not elsewhere provided in these regulations, any decision or action required shall be decided by a simple majority vote of the Committee, whose determination of the matter shall be final and not to be construed as having set a precedent.

Whereby error or omission any of the foregoing regulations shall require interpretation, the original intent of the Committee in the framing of the subject regulation shall prevail, rather than the letter of the law.

Groups who have been accepted by the Gymsport Committee to attend State Championships as a display group will fulfil the event selection criteria for the State team. Groups that have withdrawn from State Trial events on medical grounds must provide a written report from a Doctor/Physiotherapist which includes the athlete's injury details as well as the projected recovery timelines for consideration. Groups that have been accepted must send through a medical clearance with accompanying video of routine to the GSNW ESDO no later than 72 hours prior to the event. Refer to state championships selection for more information on special considerations to attend State Championships.

Groups competing internationally at a Sanctioned FIG event can apply for special consideration to be eligible for the State Team without attending State Championships. Athletes must still fulfil the other criteria to be considered.
